Re: Public Notice Of Receipt of a Hazardous Waste Facility Clos  
Plan

Attention: Dale Williams, Supervisor

Dear Mr. Williams:

We are responding to a Public Notice to close a hazardous waste landfill facility owned by the Tonolli Corporation located on Rte. 54 in the Borough of Nesquehoning which appeared in the Times News Newspaper, First and Iron Streets, Lehighton, Pa. 18235, page 20 dated Tuesday, August 13, 1985.

I have been instructed by the Lansford-Coaldale Joint Water Authority which owns watershed lands adjoining the hazardous waste landfill site, to comment on this closure plan.

Attached herewith is a very through investigation by the United States Environmental Protection Agency of the hazardous waste facility and the implications on the quality of ground water. The accompanying investigation is self explanatory.

Based on the United States Environmental Protection Agency Investigation and Report, we respectfully request that the closure plan require the complete removal and treatment of all items affected from this hazardous waste landfill and that no proposed hazardous waste landfill facilities be permitted or re-permitted until a complete hazardous waste cleanup is completed.

The Lansford-Coaldale Joint Water Authority is presently facing drought conditions. The Authority is considering the installation of several deep wells to supplement the present system. However, in view of the enclosed report, the Authority has serious reservations concerning the installation of any new wells which are indeed necessary to relieve the present drought conditions.

AR101317

We respectfully request that the enclosed report and other pertinent information enclosed be considered in your determination.

Sincerely,

*Edward J. Gaydos*
